

**STOP PRESS!          ATTENTION ALL MEMBERS!**

Thinking of putting up any new stables,  
or just improving your flooring?

You must investigate this first!

## **MAGICMATTING**

This is a new concept in equestrian flooring. Made from 100% recycled plastic, it is of a unique and patented design which allows all liquids to drain quickly away.

Most importantly, it is so strong it can be used on its own WITHOUT CONCRETE.

It is soft enough to be used WITHOUT RUBBER MATTING.

Much less bedding is needed

## **SPECIAL OFFER**

At £575.00 (Introductory Members' Offer) for a 12' x 12' stable, installed, this opportunity is too good to miss.

Valid until 31.08.10
